WORK EXPERIENCE

Audio Engineer

DeCaren Productions

2003 - Present   *Joppa, MD*

- Lead teams of Audio Technicians to produce high quality shows in the high stress live broadcast environment.
- Specialized in shows debuting new technologies and rolling out new "Digital Era" mobile production units.
- Clients include ESPN, MASN, Comcast Sportsnet, Fox Sports, CBS, NBC, TBS, TSN, MPT.
- Events range from baseball games to live concerts to interviewing the President of the United States.
- Self-taught audio engineering and now regularly teach classes for audio technicians and engineers.

System/Network Administrator

Contract (TechUSA, PPI, ACI)

1997-2003   *Baltimore, MD*

- Site IT Coordinator @ Millennium Chemicals: System (Windows & Linux) and Database administration for remote research site.
- Wintel Server Admin @ Deutsche Bank: System admin and reconciliation officer to legal department.
- IT Manager @ TBC Advertising: Only IT personnel for the company. Managed all systems, servers, networks, and desktops single-handedly.
- Migration Team Leader @ Deutsche Bank: Lead all teams on site and remote in a 6 week Windows migration with only 1 outage nationwide.
- Network Admin @ Johns Hopkins Hospital: Migrated sites from thick-net to Cisco switched network under mission critical situations.
- Junior Linux Admin @ Alabanza: Supported 2500 web server NOC. Used shell scripting to automate basic tasks.
- Junior Integration Engineer @ Sylvan Learning Systems: Created new testing systems and wrote Visual Basic wrappers to thwart cheaters. Received 3 promotions in first year.
